Did You Know?

- Logicalis UK is an accredited NSSA partner for HP
- All Higher & Further Education Institutions can use the NSSA contract
- NSSA covers HP's entire server and storage range including related software and services

The National Server and Storage Agreement (NSSA) is a pre-tendered EU framework agreement specific to the Higher and Further Education sector.

What sets us apart?

A Professional Partner of HP, Logicalis is the UK's foremost public sector ICT Solution Provider. We deliver powerful solutions for academic institutions, based on the full HP Enterprise Servers and Storage range and supported by a comprehensive 24 x 7 support service.

We are focused on innovation and best value for our customers

We deliver solutions utilising the skills of over 200 consultants, technicians and engineers

We have a proven track record of service excellence in all our chosen disciplines

The NSSA agreement provides members' institutions with the ability to purchase IT infrastructure without going to individual EU tender and is supported by a strict service level agreement, ensuring quality of service.

Benefits to you

Consistently low pricing on HP servers and storage technologies

Experienced technical pre and post-sales consultancy

Ability to purchase under a means tested, pre-tendered framework agreement

Fully comprehensive support and installation services

Exclusive product offers and promotions
