

Cisco Service

First Contracts

Simplify your support landscape adopting a Service First business approach, to become the one-support partner with one contract, and make procurement centralised on Logicalis.

With no obligation, Logicalis UK can review your current support landscape and help to advise and ensure that your critical infrastructure is fully optimised and capable of meeting the demands of an agile business environment.

 Improve efficiency and operational excellence via enhanced reporting and escalation management.

 Reduce risk with a No Service Denial offering with full coverage, managed MACD and formalised true-up processes.

 Have the reassurance and predictability of 3-year contracts with financial models available to suit business requirements.
